DETAILED ACTION

Claim Rejections - 35 USC § 112

- 1. The following is a quotation of the second paragraph of 35 U.S.C. 112:
 - The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 2. Claim 9 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 9 is directed to both of a system and a method, the system for evaluating and comparing golf club head designs and the method comprising the steps of creating a graphical model of a golf club head. It is not clear which invention this claim is referring to.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 4. Claims 1 7 are rejected under 102(b) as being anticipated by Naruo et al.

Regarding claims 1, 3 and 4, Naruo et al disclose an apparatus for selecting a shaft with an optimum flex for a golfer comprising an impact tester (See Col. 5, lines 1 - 6), a frame, a shaft 2 secured in a cantilevered manner to the frame, a golf club head mounting apparatus receiving a club head, deflection sensing means 20 emitting a voltage signal indicative of a sensed deflection, a processing unit 15 connected to the deflection sensing means to receive voltage signals and to

2955

calculate shaft deflection and acceleration sensing means 31 with a meter 33 sensing an acceleration

of the shaft and the processing unit being connected to the acceleration sensing means (See Col. 5,

lines 54 - 67).

Regarding claim 2, the frame includes a vertical tube by which an impacting object 3

can be aimed and guided to impart a magnitude and location variable impacting force on the club

head (See Col. 4, lines 19 - 28).

Regarding claim 5, the processing unit 15 includes a triggering device 23 to initiate data

collection for the deflection and acceleration sensing means (See Col. 5, lines 58 – 64).

Regarding claims 6 and 7, a monitor 14 is connected to the processing unit 15 (See Col. 4,

lines 33 - 39).

Allowable Subject Matter

5. Claim 8 is allowed.

Conclusion

6. Any inquiry concerning this communication should be directed to examiner Octavia Davis at

telephone number 571.272.2176.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor

Edward Lefkowitz, can be reached on 571.272.2180. The fax phone number for the organization

where this application or proceeding is assigned is 703.872.9306.
